Problem-solving Time Management

LANGUAGES

English B2

PROFILE

I'm an IT enthusiast with over a year of experience, and my greatest achievement is a fully implemented mobile app for meeting new friends, successfully available on the Play Store. I am precise and responsible, with a strong motivation to work and achieve set goals. I learn quickly and can work efficiently under pressure.

Currently, I am gaining knowledge in databases and the TypeScript language. My experience with various technologies allows me to combine the knowledge I've acquired with a creative approach to challenges. I am ready to join a team where I can effectively utilize my skills and collaboratively create solutions.

WORK EXPERIENCE

Fullstack Developer

CodeAlly

12.2022-11.2023

- Developed software for a platform that employs developers.
- Built a CV creator using **React** and **Node.js**, enabling dynamic document generation.
- **Integrations** with external services (e.g., **GitHub**)
- Analyzed files using external cloud solutions, streamlining the qualification assessment process.
- Tested code with **Jest** and **Mocha** to ensure stability and high-quality solutions.
- Stored and managed data in **MongoDB**.

Co-Founder & Frontend Developer

Meetz

08.2023- now

- Developing functionalities that enhance user experiences and support them in making connections.
- Creating attractive and intuitive interfaces that engage users and ensure smooth app usage.
- Working with **MongoDB** to effectively store and manage user data.
- Implementing front-end solutions in **React Native** using **Expo**, in close collaboration with the team.
- Creating company growth strategies and conducting marketing activities that support the app's growth.

IT Tutor, IT Consultant

Freelance

2023-now

- Providing IT tutoring for children and adults, focusing on computer literacy, programming and operating systems.
- Assisting older individuals with basic computer skills, helping them navigate modern technology.
- Offering personalized support for setting up online stores using various e-commerce platforms (e.g. Wix).
- Developing simple IT projects, including website creation, system configuration and troubleshooting.
- Strengthening communication skills by explaining complex technical concepts in an accessible manner during one-on-one mentoring sessions.
